MY Y STORY

BUILDING YOUTH POTENTIAL

Last year, 80 at-risk 5th graders connected with caring adult mentors who offered support and encouragement in the Future Leaders Mentorship program.

"I saw growth after only three weeks. It's amazing! The students we selected are working on emotion management, impulse control, taking responsibility and self-esteem. They admire their mentor so much that they're hanging on his words and wisdom, and they're truly being self-reflective and participating in their own growth and development."
